Are you the owner of a **Startup** or **Small Business**? Do you want to optimize your vision, strategy, and productivity? If yes, **BOS-UP®**, in partnership with **Ninety®**, can help. Together, we empower business owners and leadership teams to build, run, and scale successful and resilient companies. We do so, by providing a simple, effective, and affordable **Workshop** solution to learn, implement, and benefit from an innovative, world-class, software-powered **Business Operating System (BOS)**.

Founded in 2016, Ninety is a venture-capital backed software company, with over 10,000+ customers, 250K+ users, in 40+ countries - with their own flagship business operating system, known as **90os™**. BOS-UP helps startups and small businesses learn, develop, and apply the features and functions with 90os through our intensive and impactful 1-day **Learning, Development & Application Workshops**.

Reasons & Benefits with a BOS-UP + Ninety (90os) Solution:

- Clarify, validate, and harness the attributes and competencies that help frame, guide, and generate high-trust accountability.
- Formalize a clear and concise vision and operating structure.
- Set, track & ensure realistic measurables (i.e., OKRs & KPIs).
- Keep everything under control, using shared goals and values.
- Define and streamline operations, performance, and processes.
- Verify roles and responsibilities, so everyone will be accountable.
- Maximize meeting effectiveness, communication, and collaboration.
- Minimize distractions & issues, while boosting focus & productivity.
- Create a positive company culture, where people feel appreciated.
- Build, run & scale a successful hybrid/virtual workplace company.
